

CIRCULAR NO.15/2017 DATED 07/10/2017

The Motor Vehicles Department functions under the provisions of Section 213 of the Motor Vehicles Act 1988(Central Act 59 of 1988). One of the main functions of the Motor Vehicles Department is enforcement of Motor Vehicles Act and Rules. On review of the statement of field work, it is found that field work of the Department is far from satisfactory. Effective and regular road checking will reduce the rate of accidents. In order to improve the enforcement work, checking of vehicles should be attended by the field staff other than MES squad on a daily basis in addition to normal duties including tax arrear work. Details of the checking of vehicle by each field officer should be entered in SAFE module on same day itself.

All heads of officers are directed to ensure that the above instructions are strictly followed by all concerned. They will also ensure that the instructions are noted by all field staff.
