Greetings! It has been noticed that vehicle no KL13AG6375 operating on the route Kasaragod to Kozhikode with route length 225km, is conducting illegal operation without any valid permit. The said valid permit has been expired on 2015 and has its temporary permit expired on October 2020 was conducting service since then on the basis of order no RT-11036/35/2020 from MORTH New Delhi, Here in this case the kerala govt has issued notification last year not to issue permits for vehicles above 140 km, but the said vehicle is conducting service on the above criteria which stands invalid for these class of vehicles.

Besides in this case the temporary permit application has been rejected by the RTA kannur with item no 168 (enclosing copy of agenda and decision of RTA kannur held on 5.2.2021).

I kindly request you to go through all these facts and do the needful to stop service of this vehicle.

Looking for your kind cooperation.

Regards

Roshan Gangadharan
